(54) SYNTHESIZED GRAPHIC GENERATOR

(57)Abstract:

PURPOSE: To only generate and change a synthesis method file without rewrite of a processing program to generate or change a synthesized pattern by generating the synthesis method file where synthesis methods for combination of patterns of parts are described and synthesizing patterns of parts based on this synthesis method file.

CONSTITUTION: This generator is provided with a synthesis method master 3 where a synthesis method file 31 where synthesis methods for combination of parts are described is stored and a synthesis parts master 6 where patterns of parts to be synthesized are preliminarily stored, and patterns of pertinent parts are taken out from the synthesis parts master 6 in accordance with a synthesis method corresponding to a synthesis indication in the synthesis method file 31 taken out from the synthesis method master 3 in response to the synthesis indication to generate a synthesized pattern.

LEGAL STATUS

[Date of request for examination] 01.05.1992

[Date of sending the examiner's decision of rejection] 26.09.1995

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's

decision of rejection]

[Date of extinction of right]
